★ SOUND ADVICE

"The Pro-Ject continues to deliver an effortless musicality."

- It handles **complex time signatures** and **fast-moving basslines** with an **energy and dexterity** that is immediately apparent. The onboard phono stage has **no unwanted noise**, delivers **plenty of gain**, and possesses a **sweetness** to how it goes about its business that is a **cut above many built-in units**.

 avforums

"The T2 feels and sounds like a huge step up."

- The internal phono stage is **dead silent**. **Pitch stability is excellent**. The combination of **low noise floor** and **naturally spacious presentation** combines to pull a gratifying amount of information out of the record and sound **fundamentally satisfying** while you do so.
